Summary

- I am a passionate web developer with expertise in crafting responsive, user-friendly, and dynamic web applications. With a strong foundation in front-end and back-end development, I specialize in building seamless digital experiences. My skills include HTML, CSS, JavaScript, React, Node.js, and database management with MySQL and MongoDB. I thrive on solving complex coding challenges, optimizing performance, and staying updated with the latest web technologies.

Technical Skills

- Programming Languages: Java
- Frontend: HTML, CSS, JavaScript, React
- Backend: Node.js, Express.js | Database: MongoDB, MySQL
- Tools: Git, GitHub, VS Code

Experience

- Full Stack Developer | Intern
- Internship Completed at Clustor Computing Pvt Ltd for 12-16 weeks.
- Developed responsive web applications using HTML, CSS, JavaScript, and React.
- Built backend services using Node.js and Express.js to handle REST APIs. Designed and managed databases using MySQL / MongoDB.
- Integrated frontend with backend APIs and handled data flow efficiently. Implemented user authentication and authorization features.
- Implemented user authentication and authorization features.
- Debugged and optimized code to improve performance and usability.

Projects

Spin Rentals – Eco-Friendly Bike & Scooter Sharing Platform

Technologies: Node.js, Express.js, MongoDB, Google Maps API, React.js, JavaScript

- Developed a sustainable bike and scooter rental platform that promotes eco-friendly urban mobility.
- Integrated Google Maps API for real-time tracking, allowing users to locate and rent nearby electric scooters and bicycles.
- Implemented secure payment processing using Stripe/Razorpay for seamless transactions.
- Designed a responsive, mobile-friendly UI with React.js, HTML, CSS, and JavaScript to enhance user experience.
- Used MongoDB for scalable storage of rental history, user profiles, and vehicle availability.
- Built a dashboard for users to manage rentals, track ride history, and view eco-impact statistics.
- Developed RESTful APIs for efficient data handling, including booking, payments, and ride tracking.

Portfolio Website – Personal Branding & Project Showcase

Technologies: HTML, CSS, JavaScript, React.js, Next.js, GitHub Pages

- Designed and developed a responsive portfolio website to showcase personal projects, skills, and achievements.
- Implemented a clean, modern UI with intuitive navigation to enhance user experience.
- Integrated dynamic project sections to display detailed case studies, tech stack, and live demos.
- Optimized performance and SEO using Next.js for fast loading and improved visibility.
- Hosted on GitHub Pages with continuous deployment for seamless updates.
- Developed contact forms and interactive elements to engage visitors and potential employers.

Educational Qualification

- Tulsiramji Gaikwad-Patil College of Engineering and Technology, Nagpur
Bachelor of Technology in Information Technology | CGPA: 7.99

Maharashtra
July 2022 – July 2026

Certification

- NPTEL Certification with Programming in Java
- AWS Cloud Virtual Internship of 2 months
- Palo Alto Cybersecurity Virtual Internship of 2 months

During June-October 2025
During July-September 2024
During January – March 2024
